8.5 CGPA

Bachelor of Computer Application (BCA)

Sri Bhagawan Mahaveer Jain

College Jul 2017 – Sep 2020

7.8 CGPA

Experience

Dabster Consulting
Senior Talent Acquisition
Executive Bangalore (On-site)

Jan 2025 – Present

Roles & Responsibility:

- Manage end-to-end recruitment for **SAP and IT functional and technical roles** across **UK and European markets**, including Germany, France, Poland, Romania, and the Netherlands.
- Partner with **European IT consulting firms and system integrators** to understand hiring needs, project requirements, and candidate expectations across SAP and broader technology roles.
- Source niche SAP and IT talent (SAP SD, FICO, MM, PP, ABAP, S/4HANA, along with related IT roles) using **advanced Boolean search, LinkedIn, job portals, and referral networks**.
- Conduct structured candidate screening to assess technical expertise, project experience, communication skills, and role alignment for both SAP and IT positions.
- Represent candidates professionally by presenting profiles with contextual insights, strengths, and market intelligence, rather than forwarding CVs without evaluation.
- Coordinate interviews across multiple time zones, managing candidate communication, scheduling, feedback, and follow-ups with hiring stakeholders.
- Support the full hiring lifecycle, including interview preparation, offer coordination, joining follow-ups, and post-offer engagement, ensuring a smooth and transparent candidate experience.
- Maintain recruitment trackers, **ATS (Job Diva)** records, and documentation to ensure process compliance, data accuracy, and timely hiring outcomes, while staying updated on UK and European SAP & IT hiring trends and rate benchmarks.

Trijit Limited
Talent Acquisition Specialist
Bangalore (On-site)

Feb 2024 – Dec 2024

Roles & Responsibility:

- Managed end-to-end recruitment activities.
- Screening and analyzing candidates' profile and resume.
- Conducted telephonic and video interviews, and followed up with candidates and panelists regularly.
- Attention to detail in day-to-day work assigned.
- **Maintained the internal database** and sent detailed recruitment reports as needed.
- Utilized social media platforms for recruitment.
- Responsible for handling requirements from **UK/EU/US** based clients.
- Managed the entire recruitment lifecycle, including conducting interviews, extending offers, negotiating terms, and successfully closing candidates for assigned roles.
- Sourcing from **Job Portals (Job site, LinkedIn)**.

Mphasis
Associate Software Engineer Bangalore (Remote)

Nov 2023 – Jan 2024

Roles & Responsibility:

- Learning and understanding **Full Stack Development** models and frameworks.
- Participating in training programs and completing assessments related to web development.
- Working on practice projects to apply knowledge of **front-end and back-end technologies**.
- Gaining hands-on experience with coding languages and development tools.
- Building and testing responsive web applications in practice environments.
- Developing a solid foundation in **database management**.
- Regularly engaging in self-study to improve programming skills and problem-solving techniques.
- Exploring version control systems like Git for managing code effectively.

HUDL
Sports Analyst
Bangalore (Remote)

Jul 2023 – Nov 2023

Roles & Responsibility:

- Analyzed and delivered performance insights for professional sports teams, including **LaLiga, Bundesliga, and NBA**.
- Developed predictive models and conducted quality reviews of sports data using proprietary tools.
- Streamlined analytics processes to enhance decision-making for athletes and teams.
